What is it all about?

The **QuizAPI** is a SaaS which lets you test your knowledge on a wide variety of technical topics. You can create your own Quiz or get random set of questions for a speicifc topic including Linux, DevOps, BASH, PHP and lots more. We offer an easy to use API which allows you to embed the quiz on your own website.

CUSTOMIZABLE

Create your own Quiz.

CLEAN

Easy to use API.

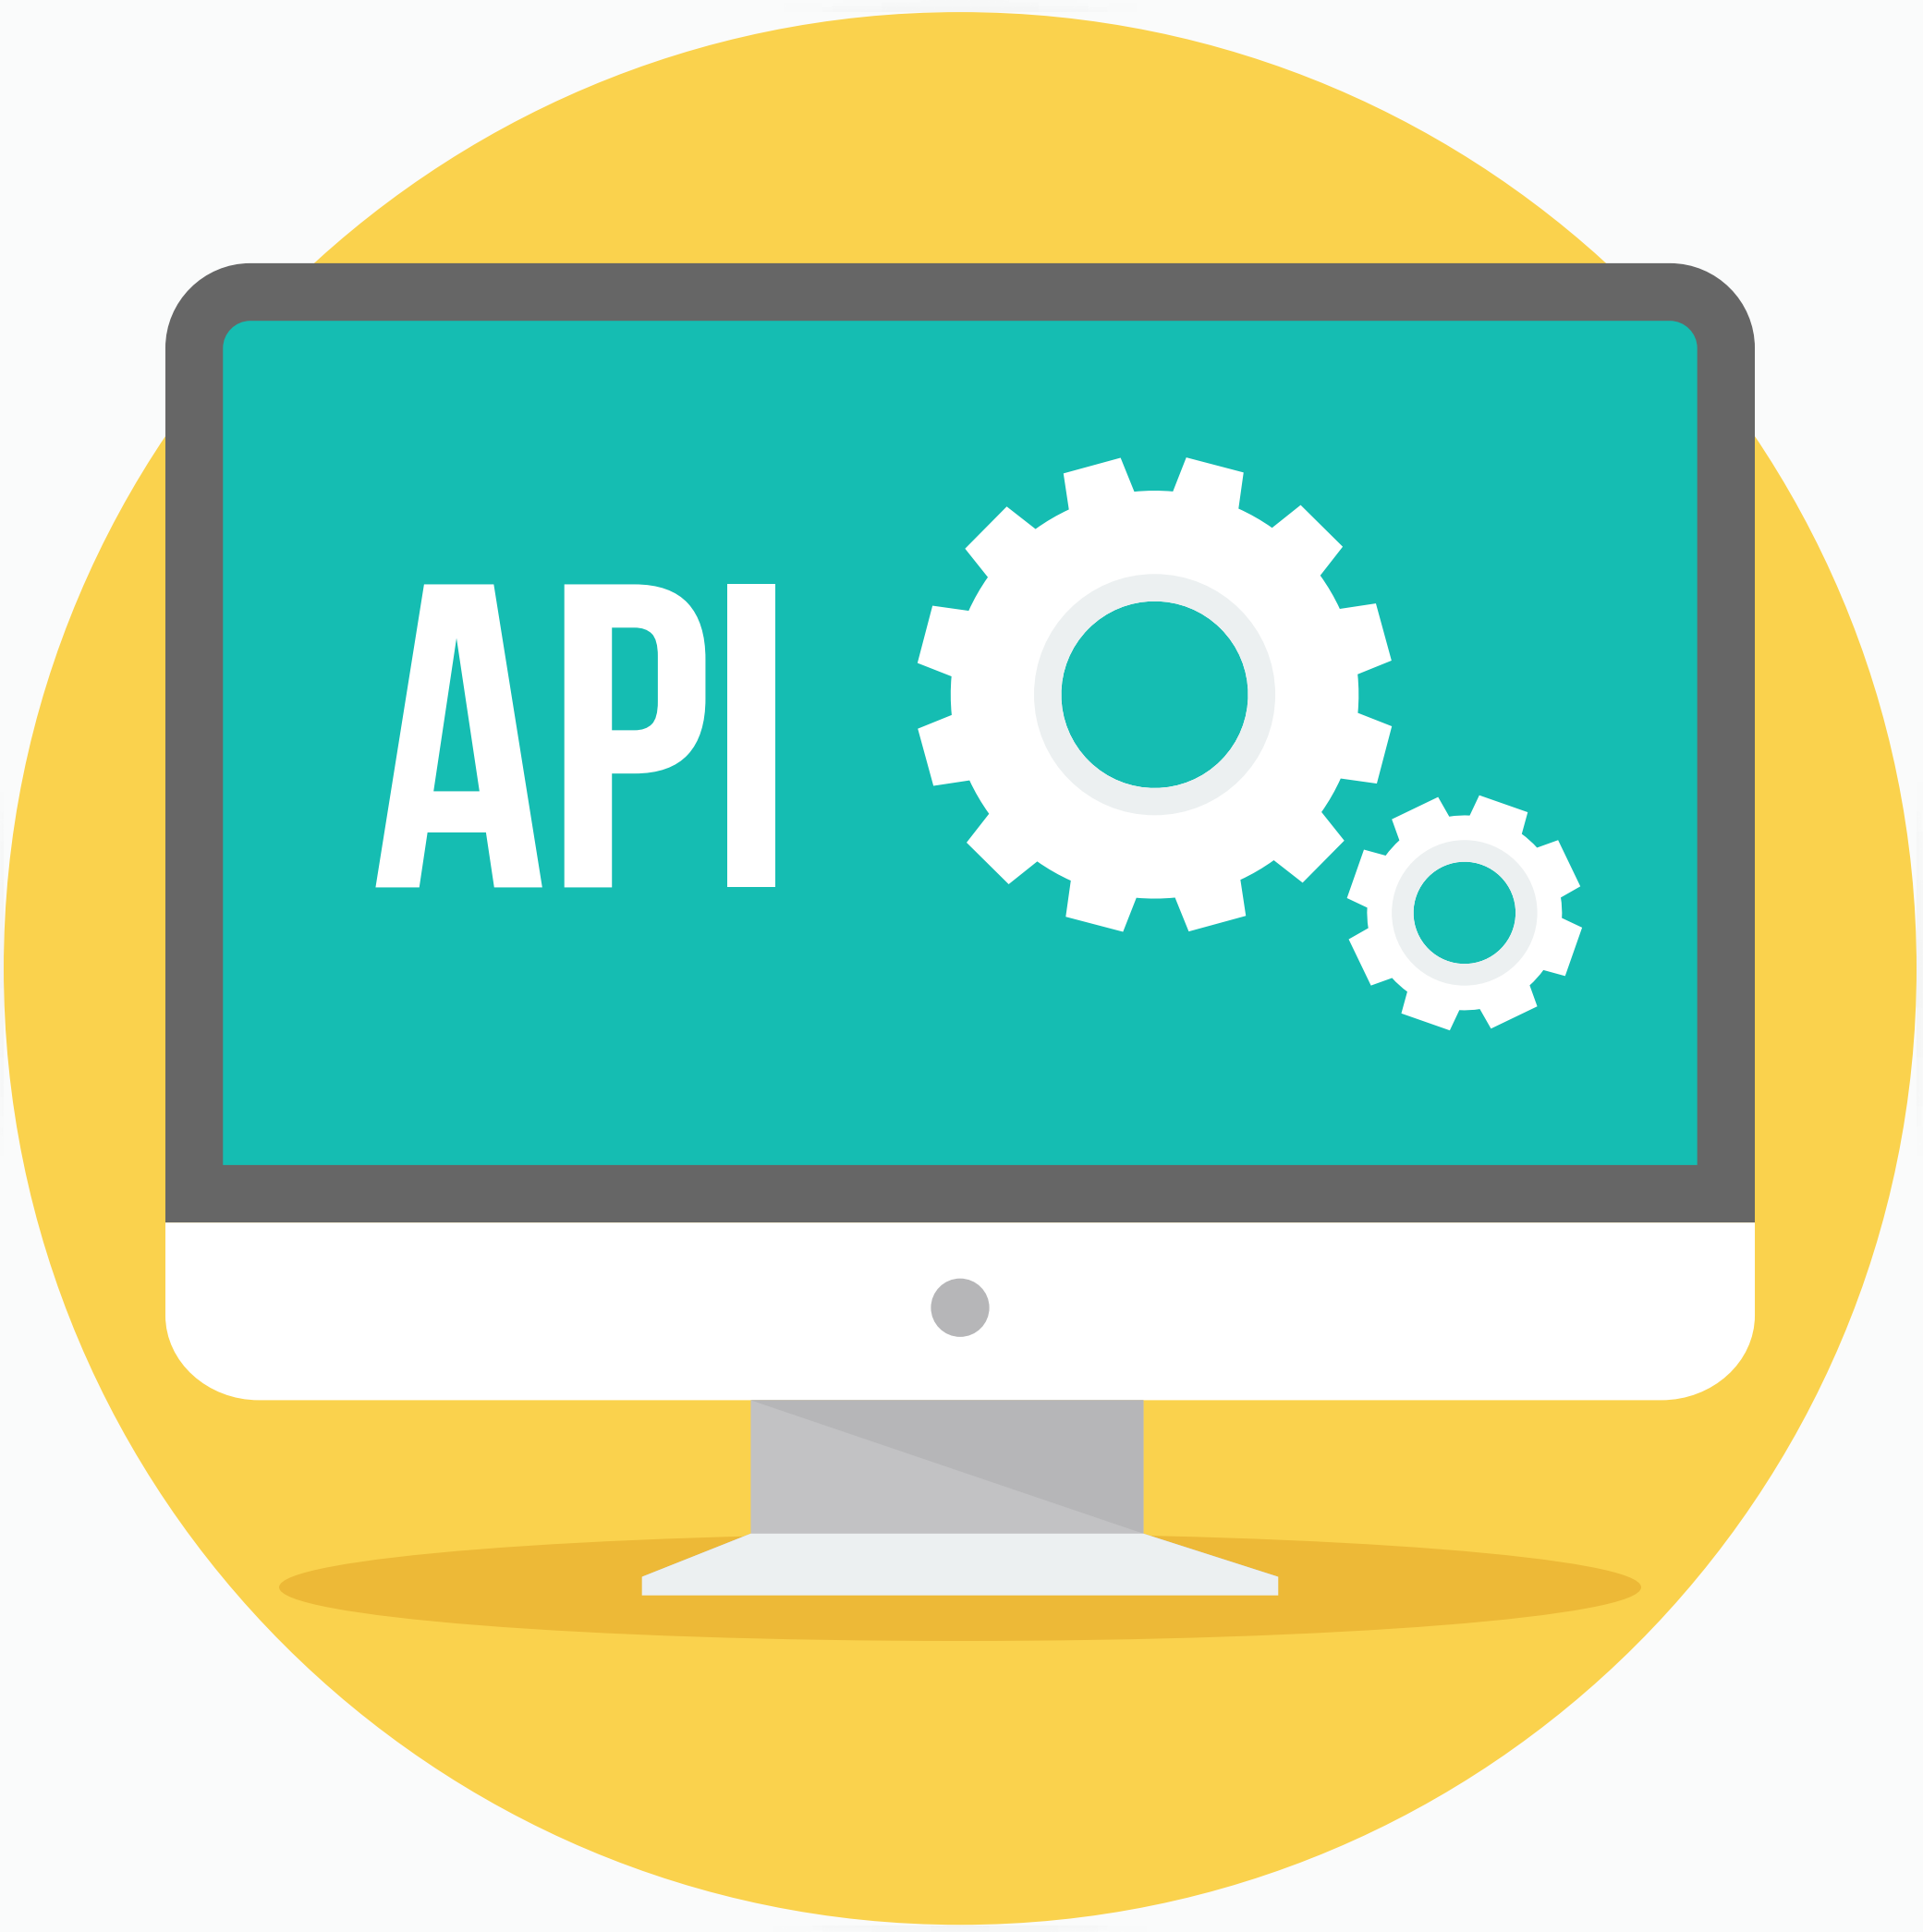

RESPONSIVE

Create your own Quiz wrapper.

DOCUMENTED

Fully documented API.
